

Exercise

Given is a part of a road map that models direct connections between German cities as a weighted graph (distances in km):

Determine the shortest route from Ludwigshafen to Rosenheim with A* search. Use the straight line distance as a heuristic:

City	Distance from Rosenheim (km)
Frankfurt	356
Kaiserslautern	367
Würzburg	268
Stuttgart	240
Kassel	429
Karlsruhe	304
Erfurt	357
Nürnberg	194
Augsburg	109
München	52
Rosenheim	0
Saarbrücken	407
Heilbronn	258
Ludwigshafen	326
